

**Anne Gunderson**

Anne J. Gunderson, assistant vice president for education, safety and quality at MedStar Health, and professor of medicine and associate dean for innovation in clinical education at Georgetown University Medical Center, is a leader in patient safety issues and medical education. Dr. Gunderson is responsible for creating and leading safety, quality and leadership educational offerings for the health care system. Dr. Gunderson holds a doctorate in Educational Leadership and she is a board certified Geriatric Nurse Practitioner. Her academic career in medicine is highlighted by a high level of knowledge and skill in regard to strategic planning and curricular design; novel, cutting edge educational methodology; and current trends in curriculum delivery, assessment and evaluation.

Dr. Gunderson has served as a leader for the Telluride Patient Safety Round-Table since 2006. She has also served as an invited advisor for the AMA and the Lucian Leape Roundtable. She served two terms on the Association of Rehabilitation Nurses Board of Directors and a 3-year term on the American Geriatrics Society Health Care Systems Committee. She served 3 years as Chair of the Association of American Medical Colleges Central Group for Educational Affairs and the Group on Educational Affairs; and 4 years as the UGME section leader. Dr. Gunderson's research interests have led to PI/Co-PI roles on projects funded by the U.S. Department of Education, HRSA, D.W. Reynolds Foundation, John A. Hartford Foundation and multiple state-level grants.
